

*Estimated Burden Hours per**Response: 5 mins.**Estimated Total Annual Burden**Hours: 108,175.*

Request for Comments: Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will become a matter of public record. The public is invited to submit comments concerning: (a) Whether the collection of information is necessary for the proper execution of the function of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of the information on the respondents, including the use of automated collection techniques or other forms of information technology.

By Gerard Poliquin, Secretary of the Board, the National Credit Union Administration, on March 31, 2020.

Dated: March 31, 2020.

Mackie I. Malaka,

NCUA PRA Clearance Officer.

NATIONAL SCIENCE FOUNDATION

Request for Information—Interagency Arctic Research Policy Committee, Chaired by the National Science Foundation

AGENCY: National Science Foundation.

ACTION: Request for information.

SUMMARY: The Interagency Arctic Research Policy Committee (IARPC), chaired by the National Science Foundation, seeks public input on the content and organization of the next 5-year Arctic Research Plan: 2022–2026.

DATES: Written comments must be submitted no later than July 2, 2020.

ADDRESSES: Email comments to IARPCPlan@nsf.gov. Send written submissions to Roberto Delgado, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314.

FOR FURTHER INFORMATION: Contact Meredith LaValley at 940-733-5675.

SUPPLEMENTARY INFORMATION:

The Interagency Arctic Research Policy Committee (IARPC) is initiating development of the next Arctic Research

Plan, as called for in the Arctic Research Policy Act (ARPA) of 1984 (15 U.S.C. 4108). The Plan aims to strengthen interagency communication, coordination, and collaboration of the 14 Federal agencies, departments and offices that make up IARPC. The Plan will address critical needs in Arctic research and identify those areas where research in the Arctic can be improved through interagency collaboration. More information is available at <https://www.iarpcollaborations.org/arctic-research-plan-2022-2026.html>.

About IARPC

IARPC is chartered as a subcommittee under the National Science and Technology Council (NSTC) managed by the Office of Science and Technology Policy (OSTP) in the Executive Office of the President. The Arctic Research Policy Act of 1984 (ARPA) provides for a comprehensive national policy dealing with national research needs and objectives in the Arctic. The ARPA established an Arctic Research Commission (ARC) and an Interagency Arctic Research Policy Committee (IARPC), to implement the Act. IARPC was formally created by Executive Order 12501 and with the Director of the National Science Foundation serving as Chair.

IARPC is charged with enhancing both the scientific monitoring of and research on local, regional, and global environmental issues in the Arctic. To meet the Nation's economic, scientific, and environmental needs, IARPC envisions a prosperous, sustainable and healthy Arctic realized through research coordinated among Federal agencies and domestic and international collaborators.

About the Arctic Research Plan

IARPC is required by law to prepare and execute a 5-year Arctic Research Plan, which helps to coordinate the overall Federal effort in Arctic research. To address the interests and needs of all, IARPC works in partnership with representatives from local communities, Indigenous Peoples, the State of Alaska, the private sector, non-governmental organizations, research institutions, and the academic community. To date, two research Plans have been released and implemented. The current Plan, "Arctic Research Plan 2017–2021," has four policy drivers and nine research goals (see below). The current Plan is being implemented by nine collaboration teams which are co-led by program managers and researchers from IARPC agencies and individuals from the research community and Alaska Native partners.

In September 2019, the IARPC Principals approved the development of the next Arctic Research Plan, covering the period of 2022–2026, with a planned release date at the end of calendar year 2021.

Plans reflect the goals and missions of the Federal agencies supporting research in the Arctic and are developed in coordination with the goals and objectives set out by the Arctic Research Commission. Arctic Research Plans focus on research which will be enhanced through collaboration among Federal agencies. The new Arctic Research Plan will provide a blueprint for effective Federal coordination of Arctic research for the period 2022–2026, positioning the United States to remain a global leader in Arctic research and stewardship for many years to come.

Seeking Input

As called for in the ARPA, IARPC seeks input to ensure that the research interests and needs of all are addressed appropriately in the new Plan. Input is sought from any interested individuals and organizations, and IARPC is committed to an open and equitable engagement process throughout the development of the Plan. A second **Federal Register** Notice, seeking input from interested individuals and organizations, will be posted when a draft of the new Arctic Research Plan is ready in 2021.

IARPC is soliciting input on:

1. Content of the Plan: The critical issues where Federally-funded science and engineering research can provide knowledge to promote good decision-making at all levels related to the Arctic.

2. Organization of the Plan: The structure of the Arctic Research Plan and how it might be updated to better meet and communicate the science needs and plans for the Arctic.

The current Plan "Arctic Research Plan 2017–2021" has four policy drivers and nine research goals.

The policy drivers for the Arctic Research Plan FY2017–2021 are:

- Enhance the well-being of Arctic residents;
- Advance stewardship of the Arctic environment;
- Strengthen national and regional security; and
- Improve understanding of the Arctic as a component of planet Earth.

The 9 goals of the Arctic Research Plan FY2017–2021 are:

- Enhance understanding of health determinants and improve the well-being of Arctic residents;
- Advance process and system understanding of the changing Arctic

atmospheric composition and dynamics and the resulting changes to surface energy budgets;

- Enhance understanding and improve predictions of the changing Arctic sea ice cover;
- Increase understanding of the structure and function of Arctic marine ecosystems and their role in the climate system and advance predictive capabilities;
- Understand and project the mass balance of glaciers, ice caps, and the Greenland Ice Sheet, and their consequences for sea level rise;
- Advance understanding of processes controlling permafrost dynamics and the impacts on ecosystems, infrastructure, and climate feedbacks;
- Advance an integrated, landscape-scale understanding of Arctic terrestrial and freshwater ecosystems and the potential for future change;
- Strengthen coastal community resilience and advance stewardship of coastal natural and cultural resources by engaging in research related to the interconnections of people, and natural and built environments; and
- Enhance frameworks for environmental intelligence gathering, interpretation, and application toward decision support.

For the full Arctic Research Plan 2017–2021, see: https://www.iarpccollaborations.org/download.axd?file=iarp_arctic_research_plan_2017-2021.pdf.

For the full Arctic Research Plan 2013–2017, see: https://www.iarpccollaborations.org/uploads/cms/documents/2013_arctic_research_plan.pdf.

For details on the conduct of research we aim to support in the new Plan, see the Principles for Conducting Research in the Arctic: https://www.iarpccollaborations.org/uploads/cms/documents/principles_for_conducting_research_in_the_arctic_final_2018.pdf.

Dated: March 31, 2020.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.

NUCLEAR REGULATORY COMMISSION

[Docket No. 99902046 NRC–2020–0088]

Oklo, Inc.; Oklo Power

AGENCY: Nuclear Regulatory Commission.

ACTION: Combined license application; receipt.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is providing public notice of receipt and availability of an application for a combined license from Oklo Power, a subsidiary of Oklo, Inc.

DATES: The application for the combined license was received on March 11, 2020.

ADDRESSES: Please refer to Docket ID NRC–2020–0088 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC–2020–0088. Address questions about NRC docket IDs in *Regulations.gov* to Jennifer Borges; telephone: 301–287–9127; email: Jennifer.Borges@nrc.gov. For technical questions, contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. The application will also be available at <https://www.nrc.gov/reactors/new-reactors/advanced/oklo.html>.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: Lucieann Vechioli, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–6035; email: Lucieann.Vechioli@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Discussion

On March 11, 2020, Oklo Power, a subsidiary of Oklo, Inc. filed with the U.S. Nuclear Regulatory Commission (NRC) pursuant to Section 103 of the Atomic Energy Act and title 10 of the *Code of Federal Regulations* (10 CFR) part 52, “Licenses, Certifications, and Approvals for Nuclear Power Plants,” an application for a combined license (COL) for one micro-reactor at the Idaho

National Laboratory located in Idaho. The reactor is to be identified as the Aurora.

An applicant may seek a COL in accordance with subpart C of 10 CFR part 52.

The information submitted by the applicant includes certain administrative information such as financial qualifications submitted pursuant to 10 CFR 52.77 as well as technical information submitted pursuant to 10 CFR 52.79.

Subsequent **Federal Register** notices will address the acceptability of the tendered COL application for docketing and provisions for participation of the public in the COL process.

Dated at Rockville, Maryland, this 30th day of March 2020.

For the Nuclear Regulatory Commission.

Lucieann Vechioli Feliciano,

Project Manager, Advanced Reactors Licensing Branch, Division of Advanced Reactors and Non-Power Production and Utilization Facilities, Office of Nuclear Reactor Regulation.

POSTAL REGULATORY COMMISSION

[Docket Nos. MC2020–109 and CP2020–115; MC2020–110 and CP2020–116]

New Postal Products

AGENCY: Postal Regulatory Commission.

ACTION: Notice.

SUMMARY: The Commission is noticing a recent Postal Service filing for the Commission's consideration concerning negotiated service agreements. This notice informs the public of the filing, invites public comment, and takes other administrative steps.

DATES: *Comments are due:* April 6, 2020.

ADDRESSES: Submit comments electronically via the Commission's Filing Online system at <http://www.prc.gov>. Those who cannot submit comments electronically should contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section by telephone for advice on filing alternatives.

FOR FURTHER INFORMATION CONTACT: David A. Trissell, General Counsel, at 202–789–6820.
